REMUNERATION REPORT

Recommendation 8.1 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations $(2^{nd} \ edition)$ states that the Board should establish a Remuneration Committee. The Board has formed the view that given the number of Directors on the Board, this function could be performed just as effectively with full Board participation. Accordingly it was resolved that there would be no separate Board sub-committee for remuneration purposes.

This report details the amount and nature of remuneration of each Director of the Company and executive officers of the Company during the year.

DIRECTORS' REPORT

REMUNERATION REPORT (CONTINUED)

Overview of Remuneration Policy

The Board of Directors is responsible for determining and reviewing compensation arrangements for the Directors and the executive team. The broad remuneration policy is to ensure that remuneration properly reflects the relevant person's duties and responsibilities, and that the remuneration is competitive in attracting, retaining and motivating people of the highest quality. The Board believes that the best way to achieve this objective is to provide the Managing Director and the executive team with a remuneration package consisting of a fixed and variable component that together reflects the person's responsibilities, duties and personal performance. An equity based remuneration arrangement for the Board and the executive team is in place. The remuneration policy is to provide a fixed remuneration component and a specific equity related component, with no performance conditions. The Board believes that this remuneration policy is appropriate given the stage of development of the Company and the activities which it undertakes and is appropriate in aligning Director and executive objectives with shareholder and business objectives.

The remuneration policy in regard to setting the terms and conditions for the Managing Director has been developed by the Board taking into account market conditions and comparable salary levels for companies of a similar size and operating in similar sectors.

Directors receive a superannuation guarantee contribution required by the government, which is currently 9% per annum and do not receive any other retirement benefit. Some individuals, however, have chosen to sacrifice part or all of their salary to increase payments towards superannuation.

All remuneration paid to Directors is valued at cost to the Company and expensed. Options are valued using either the Black-Scholes methodology or the Binomial model. In accordance with current accounting policy the value of these options is expensed over the relevant vesting period.

Non-Executive Directors

The Board policy is to remunerate Non-Executive Directors at market rates for comparable companies for time, commitment and responsibilities. The Board determines payments to the Non-Executive Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at a General Meeting. The annual aggregate amount of remuneration paid to Non-Executive Directors was approved by shareholders on 7 November 2006 and is not to exceed \$200,000 per annum. Actual remuneration paid to the Company's Non-Executive Directors is disclosed below. Remuneration fees for Non-Executive Directors are not linked to the performance of the Company. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company and have all received options.

Managing Director and Senior Management

The remuneration of the Managing Director is dictated by his executive service agreement.

The Company aims to reward executives with a level of remuneration commensurate with their position and responsibilities within the Company so as to:

- Reward executives for Company and individual performance against targets set by reference to appropriate benchmarks;
- Reward executives in line with the strategic goals and performance of the Company; and
- Ensure that total remuneration is competitive by market standards.

Structure

Remuneration consists of the following key elements:

- Fixed remuneration; and
- Issuance of unlisted options

Fixed Remuneration

Fixed remuneration consists of base remuneration (which is calculated on a total cost basis including any employee benefits eg. motor vehicles) as well as employer contributions to superannuation funds.

The level of fixed remuneration is set so as to provide a base level of remuneration which is both appropriate to the position and is competitive in the market.

Remuneration packages for the staff who report directly to the Managing Director are based on the recommendation of the Managing Director, subject to the approval of the Board in the annual budget setting process.
