## **Futuro Skills secures first commercial training contract in Mozambique**

RBR Group Limited (RBR) is pleased to announce that its wholly-owned Mozambican training subsidiary, Futuro Skills Mozambique Lda (Futuro Skills), has secured its first commercial training contract with a blue chip client. Futuro Skills has been contracted by Sasol Limited (Sasol) to provide vocational training in two technical disciplines to their employees and contractors at their facilities in the Inhassoro district of Inhambane Province, Mozambique. The training is scheduled to commence in September 2016.

Sasol is an integrated energy and chemical company headquartered in Johannesburg, South Africa, with extensive gas-based operations and infrastructure in Mozambique. The company was formed in 1950 in Sasolburg, South Africa, and is the world's first oil-from-gas company. Sasol is listed on the JSE in South Africa and on the New York Stock Exchange in the United States.

**RBR Chief Executive Richard Carcenac said, “Being awarded a contract by this prestigious, tier-one international organisation has demonstrated that Futuro Skills’ capabilities and cost-effectiveness are being recognised in Mozambique. Furthermore, RBR’s strategy in Mozambique is targeting the gas industry and its related service sectors, and Sasol is currently the premier company operating in this sector within the country”.**

RBR expects that this first contract will lead to further work for Futuro Skills in the resources and gas sectors, both with Sasol and other companies, as the massive minerals and gas/LNG potential of the country is developed. In fact, Sasol has already asked Futuro Skills to quote for additional training, only days after awarding the first contract.
