Review of Operations

Northern Mozambique and Mozambique LNG

Notwithstanding the well-publicized past civil unrest and more recent upheaval following the national and presidential elections in- Country significant project planning and associated early works continue around the world class LNG projects in Northern Mozambique.

The previously announced project timelines for the various developments have been pushed out by project operators however recent public announcements and engagement with Mozambique Government officials by two main consortium managers, Total and Exxon, have re-enforced their respective intents to proceed and complete the projects.

Most recently on 20 February 2025, local news services reported that “ExxonMobil’s President for Upstream, Dan Ammann, led a company delegation received today by President of the Republic, Daniel Chapo, and reaffirmed its commitment to Mozambique and the liquefied natural gas (LNG) project in Cabo Delgado.”¹ This commentary and statement of commitment to the project development is further supported by the requests for expressions of interest (“EOI”) in the tenders referenced below.

Original construction process plans based on a “stick build’ in country approach have been somewhat modified to now provide for modular offshore construction, transport to site and installation however the opportunities for construction service providers such as our company both directly on site and in addition to associated local infrastructure build remain significant.

In this regard and with direct impact on RBR Group, as reported , group entities have responded to two significant contract opportunities being: Futuro Group subsidiary PD’s response to an Exxon Inc. public request for EOI to build a residential complex in the capital, Maputo and separately PD lodged a formal bid for construction of the accommodation aspects of a highly specialised 22,700m2 shore base in Pemba for offshore LNG operator ENI.

Further to the south development of our wholly owned Temane training and accommodation facility Shankara Village, continues with new lodge facilities including modern kitchen and restaurant, pool and bar under construction.

The Camp is now occupied by workers employed on the nearby Temane Gas facility and demand for additional rooms and training facilities is growing.

New Investors

Whilst the renewed optimism in the LNG developments is welcomed operating revenues for the half year were negatively impacted by the project delays and general weakness in the Mozambique economy resulting in the need for the Company to undertake a further capital raise. As reported the company successfully raised circa \$1.3m over the course of the half year, completing that process in late January 2025.

With the close of the CPS Securities lead equity raise the company has a number of new investors several of which are aligned in their support of Mr Paul Natoli, CEO and major shareholder of WA based camp construction and civil engineering group "Grounded" (<https://groundedgroup.com.au>).

Paul has personally taken a significant 10.6% position in the company via the equity placement and separately, on market purchases.

The Board has held initial discussions with Paul and his team and look forward to building that relationship as we explore further growth opportunities both in Australia and the African continent.

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of RBR Group Limited (referred to hereafter as the 'Company' or 'parent entity' or 'RBR') and the entities it controlled at the end of, or during, the half-year ended 31 December 2024.

Note 1. General information

The financial statements cover RBR Group Limited as a Group consisting of RBR Group Limited and the entities it controlled at the end of, or during, the half-year. The financial statements are presented in Australian dollars, which is RBR Group Limited's functional and presentation currency.

RBR Group Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

1202 Hay Street, West Perth, WA 6005

A description of the nature of the Group's operations and its principal activities are included in the Directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of Directors, on 28 February 2025.

Note 2. Material accounting policy information

These general purpose financial statements for the interim half-year reporting period ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Going concern

During the half-year to 31 December 2024, the Company maintained its operational focus on the re-deployment of camp assets and infrastructure in Mozambique. In addition the Company continued the development of its 100% held Shankara Training and camp accommodation facility located near to the Temane PSA Project area. The Company maintains its focus on further contract opportunities aligned with both the Temane project developments and the world scale Total lead LNG development project in Cabo del Gado province in the North.

The Group made a loss after tax for the half-year of \$850,576 (31 December 2023: Loss \$486,364). At 31 Dec 2024 the Group had current assets of \$1,230,619 (30 Jun 2024: \$1,055,635) and a net cash outflow from operating activities of \$129,447 (31 December 2023: inflow of \$997,739). At 31 December 2024 the Group has current liabilities of \$1,874,986 (30 Jun 2024: \$1,599,596). This condition is indicative of the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern.

The ability of the Group to continue as a going concern is dependent on securing additional funding, either through raising equity or securing additional debt financing.

The Directors are satisfied they will be able to raise additional working capital as required and thus it is appropriate to prepare the financial statements on a going concern basis. In arriving at this position, the Directors have considered the following matters:

- The Group maintains close discussions with convertible note holders in relation to re-negotiating the terms of the convertible notes
- The Group has the ability to implement cost cutting measures to reduce the working capital required over the next 12 months
- Key shareholders have confirmed willingness to financially support the Group via a debt or equity event
- A history of successfully completing capital raisings over the current and preceding financial period.

The Company continues discussion and negotiations with a separate party with regard to the provision of a debt finance facility to assist with the funding of both existing capital requirements and potential new business acquisitions that are synergistic to the current operating business in Africa, and, potentially further opportunities in Australia

Note 2. Material accounting policy information (continued)

Whilst these negotiations are positive they remain confidential and incomplete and as such there is no certainty that a binding financing agreement will be completed.

Should the entity not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements and that the financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the entity not continue as a going concern.

Note 3. Operating segments

Identification of reportable operating segments

The Group is organised into two operating segments are recognised according to the geographical location in which the business operates in: Asia Pacific and Africa. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

**INDEPENDENT AUDITOR'S REVIEW REPORT
TO THE MEMBERS OF RBR GROUP LIMITED**

Conclusion

We have reviewed the accompanying half year financial report of RBR Group Limited ("the Company") and its controlled entities ("the Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2024 and the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half year ended on that date, a summary of material accounting policy information and other explanatory information and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the accompanying half year financial report of the Group is not in accordance with the *Corporations Act 2001* including:

- a) giving a true and fair view of the Group's financial position as at 31 December 2024 and of its financial performance for the half year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Emphasis of matter

Material uncertainty related to going concern

We draw attention to Note 2 in the half year financial report which describes the principal conditions that raise doubt about the Group's ability to continue as a going concern. As stated in Note 2, these conditions, along with other matters as set forth in Note 2, indicate the existence of a material uncertainty that may cast doubt on the Group's ability to continue as a going concern.

Our review conclusion is not modified in respect of these matters.

Basis for Conclusion

We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the half year financial report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our ethical requirements in accordance with the Code.

Directors' responsibilities for the half year financial report

The directors of the Company are responsible for the preparation and fair presentation of the half year financial report in accordance with the Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the half year financial report

Our responsibility is to express a conclusion on the half year financial report based on our review. ASRE 2410 requires us to conclude whether in order to state whether anything has come to our attention that causes us to believe that the half year financial report is not in accordance with the *Corporations Act 2001* including; giving a true and fair view of the Group's financial position as at 31 December 2024 and its financial performance and its cash flows for the half year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*

A review of a half year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
